Cover Design

Fluidity is my inspiration for this cover art, thus the use of one-line art style. For me, gender is flowing; it is ever-changing, it does not take a certain form. Gender should not dictate how we should be, rather, embrace how we are-- free from expectations, free from judgement, living our truest form.

About the Artist

Dale Magsino, is a self-taught freelance artist from Alabat Island, Quezon. Post pandemic, they've been active in participating in art bazaars and gallery shows in Manila. Dale's works play on emotions and experiences both observed and expressed. Art is their medium to communicate inner personas their organic body cannot. They are currently open for commission graphic design works and teaching art to kids on the side.
